Complaint

On June 13, 2017, Core Civic inc had a outbreak of the scabies due to the fact that they allow females straight from the street and don't even screen them for nothing or there not sanitized with a shower or anything, this facility also allows females clothes to be washed with the males, staff members came in the unit made us sign papers we was not itching or we would go to sequestration or good time lost, i was given 6 pills for the scabies but medical never told us what they were, Core Civic inc also locked us down for 3 days with no phones or tv or showers, They never once checked each inmate to see if they has scabies. Just made us sign papers. Also staff for Core Civic inc respond to emergencies with females then come back to the unit where im being housed at, ive put in sick calls never once was they answered Core Civic inc never done anything until the court and the media got involved and its still going on out here. There short of staff that's creating a unsafe environment where they can't keep help due

to the Scabers this is dilebertly indifference
on medical and Core Civic inc. This could
have been Provented but they allowed the
outbreak to put the Public the Courts
and inmates health at risk and for this
medical and Core Civic inc should be held
accoutable for there actions in asking
the Court to Grant relief of 150,000 for
Penity, Emotions, mental and Physical Abuse.
and make Core Civic inc the Defendant
in this case
